Komalpreet Singh

647-581-2305 • komal05@my.yorku.ca • linkedin.com/in/devkomal

BSc Computer Science student at Lassonde School of Engineering with hands-on experience in software development, automated testing, debugging, and technical support. Proficient in Java and Python, with experience using JUnit, Git, and modern software development tools. Experienced in peer tutoring and student support, with strong communication, collaboration, and problem-solving skills in agile team environments.

WORK EXPERIENCE

Software Developer • Internship

Ontario Public Services • North York, ON **01/2026 - Present**

- Automated the manual testing process for OAP letters by enhancing an existing Java-based automation framework with Selenium, Cucumber, and Apache PDFBox, reducing manual testing effort by approximately 40%.
- Designed and implemented automated validation and PDF comparison capabilities to identify differences in generated letter content and layouts, improving the accuracy and consistency of testing.
- Collaborated in an Agile development environment using Git/GitHub to develop, test, troubleshoot, and continuously refine the automation solution.

Google Cloud Data Analytics Scholar & Team Lead

Mentor Me Collective **05/2025 - 09/2025**

- Facilitated weekly interactive sessions for 30 scholars to simplify complex Google Cloud data analytics concepts and enhance peer learning through guided Q&A discussions.
- Led a 5-member cross-functional team to analyze UN Goal 3 datasets using BigQuery, DataProc, SQL, Python, and Looker Studio, uncovering insights on Canada’s healthcare performance.
- Developed and automated Python-based data pipelines to collect, clean, and transform raw datasets, improving analysis accuracy and project efficiency.
- Delivered a data-driven presentation visualizing key healthcare trends, providing actionable insights to support better policy understanding and decision-making.

Full Stack Developer

Dallas Software Developers **06/2025 - 08/2025**

- Collaborated with a 6-member Agile team to develop a Smart Gym Platform using .NET Core, Blazor, MySQL, and Azure DevOps, enhancing management and user engagement for gym businesses.
- Designed the system’s ER diagrams, user stories, and wireframes to define clear requirements and ensure smooth development flow.
- Developed and integrated key features such as class scheduling, membership sign-up, and cafe POS, improving operational efficiency and customer experience.
- Deployed and monitored the platform on Azure Cloud, ensuring reliability, performance, and successful presentation to U.S.-based industry leaders.

Teaching Assistant

Lambton College • Mississauga, ON **01/2020 - 09/2020**

- Supported fellow students in understanding course material by providing guidance during labs and office hours, helping students resolve questions and apply concepts to their academic work.
- Developed instructional materials and practice exercises to reinforce course concepts, contributing to a more engaging and accessible learning experience for students.
- Provided one-on-one and peer support by adapting explanations to students' questions and learning needs, strengthening student understanding while developing effective verbal communication and tutoring skills.

EDUCATION

Bachelor of Science in Computer Science

York University • North York, ON • GPA: 8.70/9.00 09/2024 - Present

Data Analyst Program
Npower Canada • Toronto, ON 05/2022 - 09/2022

Computer Programming
Lambton College • Mississauga, ON • GPA: 3.84/4.0 04/2019 - 04/2021

CERTIFICATIONS

Google Cloud Data Analytics 05/2025 - 09/2025
Google

BEST Startup Experience Winner 02/2025 - 02/2025
York University

Azure Artificial Intelligence Fundamentals (AI-900) 09/2022
Microsoft

Azure Fundamentals Professional Certificate (AZ-900) 07/2022
Microsoft

PROJECTS

Maple Med Application 06/2025 - 06/2025
Hack The Brain

- Developed a cross-platform health records application using MERN stack + Python APIs.
- Integrated an AI-driven chatbot for personalized guidance and conducted functional testing across platforms.

Student Database Management 05/2024 - 05/2024

- Developed a Python-based application to manage student records, allowing users to add details including courses.
- Implemented search for specific students using any personal information and with options to apply some filtering for data

VOLUNTEERING & LEADERSHIP

Data Science Club 08/2025 - Present
Project Manager • North York, ON

- Lead a team of 5 developers and designers to build a student engagement platform for tracking event participation, discovering partnered companies, and forming project teams.
- Oversee project planning, task allocation, and progress reviews to ensure timely feature delivery and smooth collaboration among members.

SproutsHack 02/2025
Mentor • Waterloo, ON

- Mentored 50+ participants during a 24-hour hackathon, offering technical guidance and problem-solving support to enhance project quality and innovation.

Lassonde School of Engineering 10/2024
Tour Guide • North York, ON

- Led campus tours during the Fall Open House, engaging prospective students and families by explaining programs, facilities, and student life to support informed enrollment choices.

SKILLS

- **Frameworks and Libraries:** Angular, Express, Junit, NumPy, Pandas, React, Socket.io, Spring-Boot
- **Database Management:** AWS RDS, MongoDB, MySQL, Oracle, PostgreSQL
- **Soft Skills:** Customer service, Problem-solving, Public speaking, Student engagement
- **Programming:** Java, JavaScript, Python, Shell Scripting, SQL, TypeScript
- **Software Development & Testing:** Automated Testing, Debugging, Git, GitHub, JUnit, Object-Oriented Programming
- **Teaching & Communication:** Collaboration, Lab Assistance, Peer Tutoring, Student Engagement, Technical Support
